

BOWYER ENGINEERING LTD.

SUB CONTRACT CONDITIONS FOR AEROSPACE COMPONENTS

The supplier shall notify Bowyer Engineering of any non-conformances that occur during the subcontract/supply process and submit a request for approval for the disposition of the non-conforming product.

Changes in product and/or process definition shall be notified and approval obtained if required.

Bowyer Engineering reserves the right of access to applicable records and facilities relating to any of their aerospace orders.

Authorisation is required by a Supplier to Bowyer Engineering to use a subcontractor. If the Supplier is sub contracting any operations, it is the supplier's responsibility to flow down applicable requirements and key characteristics from this order when using sub-tier suppliers.
